INNOVATIVE VENDING SOLUTIONS vol. 1

We provide innovative vending machines tailored for an adult audience, equipped with advanced facial recognition and ID verification to ensure responsible dispensing. These machines not only offer a selection of high-demand and adult-targeted products but also feature customizable options such as advertising space and personalized machine wraps to boost brand visibility. Choose our state-of-the-art solutions for a secure, versatile, and attention-grabbing vending experience.

FEATURES

Discover the limitless options with Legal Limit Vending. We offer state-of-the-art machines that dispense a broad range of 21+ products. Customize with exclusive white-labeled or hemp-derived products from our partners, or stock with your chosen items. We aim to make setup quick and easy, providing support to ensure your offerings attract and satisfy customers. Opt for Legal Limit Vending for a seamless start and superior experience.

FACIAL RECOGNITION & ID VERIFICATION

Ensure compliance with age restrictions and enhancing customer trust. This advanced security feature allows for a seamless, hassle-free purchasing experience, reinforcing reliability. By utilizing cutting-edge technology, our vending solutions safeguard both operators and consumers, while maintaining a smooth and efficient transaction process.

SALEABLE AD SPACE

Enhance your revenue with Legal Limit Vending by utilizing our machines' ad space for dynamic marketing and engagement. Leverage custom wraps and digital displays to attract attention and generate additional income through strategic partnerships. Ensuring your space works just as hard as you do.

DATA ANALYTICS

Provide retailers with valuable insights into sales patterns, peak hours, and product performance. This feature enables you to monitor inventory levels in real-time, ensuring you never run low or out of stock. Harness these analytics to optimize your operations, tailor your product offerings, and enhance profitability through informed decision-making.

CASHLESS PAYMENTS

Legal Limit Vending machines are designed for modern convenience, accepting card payments and mobile payments like Apple Pay and Google Wallet for a seamless, cashless experience. Eliminate the hassle of managing unattended cash while offering customers their preferred payment methods. For added versatility, a cash/bill collector can be integrated into the machines for an extra fee, providing even more payment options to suit all customer needs.

ADDITIONAL FEATURES

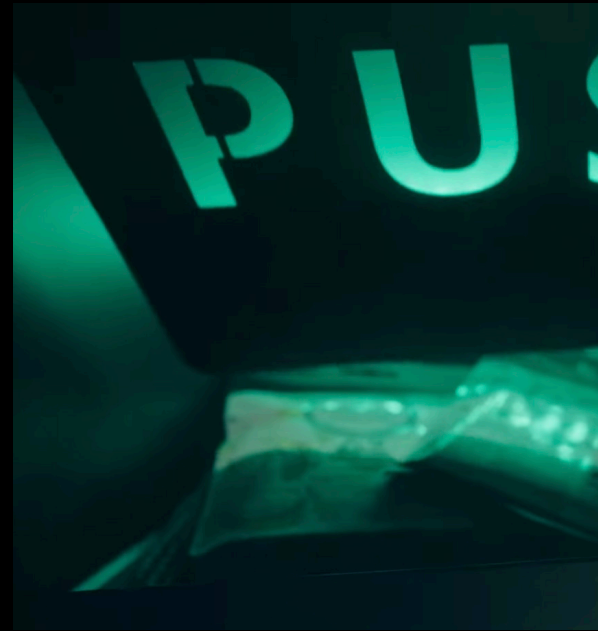

NAYAX CARD READER

Nayax card processing is a secure, all-in-one payment solution that supports multiple payment methods including credit, debit, mobile wallets, and contactless payments. It offers real-time transaction tracking, seamless integration with vending machines, and ensures fast, reliable payments for customers, making it easy for businesses to increase sales and improve customer experience.

WI-FI AND 4G

Equipped with Wi-Fi and 4G connectivity for seamless, real-time monitoring and updates, ensuring uninterrupted operation and instant access to system diagnostics, inventory tracking, and sales data. This allows you to manage your machines from anywhere, anytime, for maximum efficiency and peace of mind.

The demand for age-restricted products continues to grow. Self-service vending machines provide a convenient and compliant solution for both businesses and customers. Retailers gain additional revenue without needing extra staff, while customers enjoy easy, compliant access to the products they need.
